

Assignment –3

Overview of SQL.

1) Does ANSI recognize the data type DATE?

-> date complies with the ANSI SQL standard definition for the Gregorian calendar: Datetime data types allow dates in the Gregorian format to be stored in the date range 0001-01-01 CE through 9999-12-31 CE.

2) Which subdivision of SQL is used to insert values in tables?

-> The subdivision of SQL used to insert values into tables is Data Manipulation Language (DML). Specifically, the INSERT INTO statement within DML is used to add new rows of data to a table.
