Assignment –5

Relational and Logical Operators.

1) Write a query that will give you all orders for more than Rs. 1,000.

```
W2_92894_Ekta>select * from orders
       where amt>1000;
          Amt
                     Odate
                                   Cnum
                                           Snum
  Onum
  3002

  3011
                                   2006
                                           1001
  rows in set (0.03 sec)
```

2) Write a query that will give you the names and cities of all salespeople in London with a commission above .10.

```
W2_92894_Ekta>select sname, city from salespeople where city='london' and comm>.10;
+-----+
| sname | city |
+-----+
| Peel | London |
| Motika | London |
+-----+
2 rows in set (0.00 sec)
```

3) Write a query on the Customers table whose output will exclude all customers with a rating <= 100, unless they are located in Rome.

```
W2_92894_Ekta>select * from customers where rating <= 100 or city = 'rome';
                     City
  Cnum
         Cname
                               Rating
